

Pre-curved Spring Bolster Plate

ABSTRACT

A method and apparatus to mount a pre-curved bolster plate to a substrate.

- 5 One embodiment of the invention involves a method to assemble a pre-curved bolster plate on a substrate. A second embodiment of the invention involves a method to fabricate a pre-curved bolster plate. A third embodiment of the invention involves an assembled substrate with a pre-curved bolster plate on the opposite side of the assembled substrate, under an electrical contact area of a component on the assembled
- 10 substrate.
